Hi [Redacted]

Thank you for this. I will forward this over to our architects who are drafting plans as we speak. They will be filing for permits with the town so if there's anything that comes up we will let you know. I suspect they might require us to have a formal signed letter from your department to submit with our application. Please let me know if this is possible for you to provide.

Thank you for your time.

Hi [Redacted]

As per my phone conversation with Bruce, I am reaching out to you in regards to constructing a rooftop seating/dining area at your food service establishment. As this would not extend the footprint of your establishment, and you do not intend to increase seating, approval from the office of Wastewater Management would not be required. You will however need to submit a set of proposed floor plans, at a scale of 1/4 inch = 1 foot, for supervisory review in this office. You should also make sure that there are no additional requirements from the Town.

Please let me know if you have any questions/concerns.
